Gwalior, India

+91-9302876325 — dp200468@gmail.com

GitHub — LeetCode

## Summary

---

B.Tech IT (IoT) student with strong problem-solving skills in Data Structures and Algorithms and hands-on experience in Machine Learning and NLP. Built real-world projects including recommendation systems, predictive models, and chatbots. Seeking software engineering or ML roles to apply scalable and efficient solutions.

## Skills

---

- **Languages:** Python, SQL, JAVA, C++, Javascript
- **Core:** Data Structures & Algorithms, OOPs, DBMS (Basics)
- **Machine Learning:** Regression, Classification, Feature Engineering
- **Libraries/Tools:** Pandas, NumPy, Scikit-learn, Matplotlib, NLTK, spaCy
- **Web:** HTML, CSS, JavaScript, Backend basics

## Projects

---

### Movie Recommendation System

- Built a recommendation engine using content-based and collaborative filtering techniques.
- Applied cosine similarity to recommend movies based on user preferences and metadata.
- Processed large datasets and improved recommendation accuracy.
- **Tech Stack:** Python, Pandas, NumPy, Scikit-learn

### Gold Price Prediction Model

- Developed a machine learning model to predict gold prices using historical time-series data.
- Implemented Linear Regression and Random Forest for prediction and comparison.
- Performed data cleaning, visualization, and feature selection.
- **Tech Stack:** Python, Pandas, NumPy, Matplotlib, Scikit-learn

### NLP-Based Chatbot

- Designed an NLP chatbot to understand and respond to user queries.
- Implemented tokenization, intent recognition, and text classification.
- Built for real-world applications such as customer support automation.
- **Tech Stack:** Python, NLTK, spaCy

## Experience

---

### LLM Training Intern

Dec 2025 – Jan 2026

*Ethara.ai, Gwalior*

- Worked on Supervised Fine-Tuning (SFT) and RLHF pipelines for Large Language Models.
- Created high-quality instruction datasets to improve reasoning and safety.
- Evaluated model outputs across benchmarks and reduced hallucinations.
- Contributed to human-in-the-loop evaluation for optimizing model performance.

## Education

---

### B.Tech in Information Technology (IoT)

Oct 2023 – Jun 2027

Madhav Institute of Technology and Science, Gwalior

CGPA: 7.7

### Senior Secondary (12th)

Central Academy High School, Jaura (M.P.)

Percentage: 79%

### Secondary (10th)

Central Academy High School, Jaura (M.P.)

Percentage: 95.66%

## Achievements

---

- Solved 200+ Data Structures and Algorithms problems on platforms like LeetCode.
- Built and deployed multiple Machine Learning projects using real-world datasets.
- Selected as LLM Training Intern at Ethara.ai, working on advanced AI models.
- Strong academic performance with 95.66% in 10th grade.
